The optimal and balanced process for the professional washing **SUCCESS**

The best solution for its **efficacy**

80%

Nowadays 80% of stains are soluble in water (Wet Cleaning concept).

Then...
Why is the market still using machines which are only prepared to clean 20% of stains?

The solution is **Wet Cleaning**.

20%

Only 20% of stains are not soluble in water (Dry Cleaning concept).

Filling with stopped drum

Emptying with stopped drum

TOTAL CONTROL WITH TOUCH II

Easy programming through icons, with touchscreen directly on the machine or with the computer and Wash Control software.

WASHING

LIQUID DOSING

Dosing at the right time, with the necessary amount, gives us security during the process and homogeneity in the result. And the most important thing: tranquility.

8 dosis signals as standard + 6 extra signals (dosing time, delay, start selection) for all models.

WATER RE-CYCLE

Optional kit to increase the care of the linen: recirculation of the bath water, which increases the water flow with chemicals, shortens the cycle and improves the effectiveness without mechanical action.
