WINNING THE FUTURE THROUGH INNOVATION

OUR MACHINERY

We have a wide range of front washers from 8 to 120 kg, sanitary barrier washers, dryers up to 80 kg and wall ironers with folder, among others.

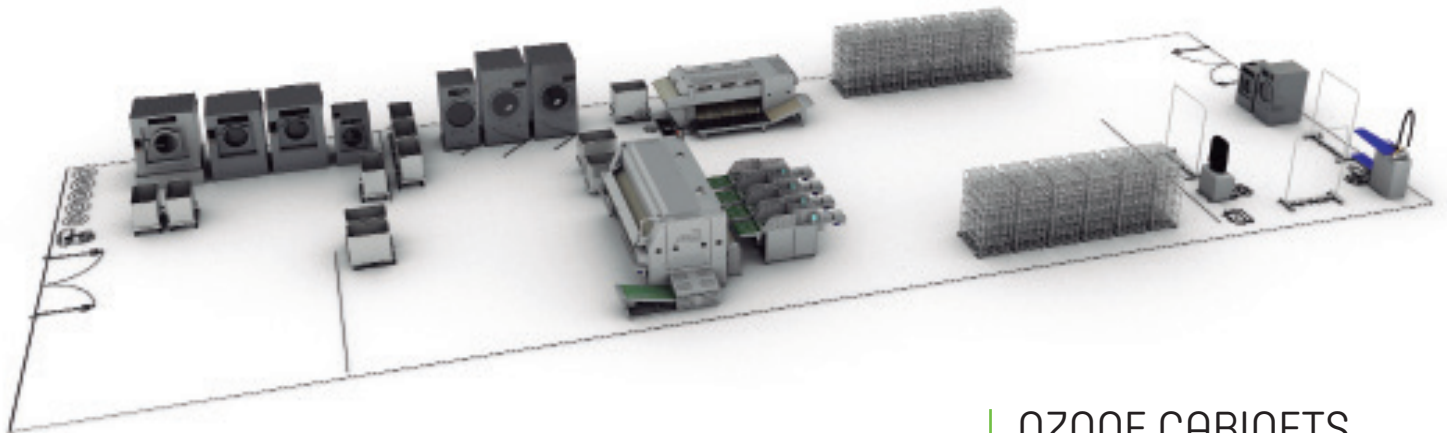

FRONT WASHERS AND SANITARY BARRIER

Front and sanitary barrier washers, that adapt to the needs of each client.

EFFICIENT DRYERS

Various ranges with the most efficient features: air recirculation, intelligent humidity sensor, ergonomics and connectivity.

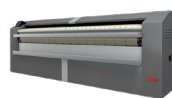

FOLDERS

Folders for towels, air or knife folding options, XL models, etc. Folder for napkins and small garments.

WALL IRONERS

Wall ironers with speed and humidity control. Connectivity for total control of the process and the business.

OZONE CABINETS

Hygiene in all your clothes and accessories.

The ECO_3 ozone cabinet is a cabin designed to DEODORIZE and SANITIZE all types of clothing, accessories and materials using ozone.

HOTEL LAUNDRY

In DOMUS we specialise in manufacturing hotel laundry machinery, using the latest technology to offer **efficiency** and **productivity** for your business.

INTEGRAL CONSULTANCY

EFFICIENCY

ECOVOLUTION
by DOMUS

We know how important efficiency is and we are very aware of commitment to the environment. That is why we have developed a new range of state-of-the-art products with low consumption and great energy savings.

Water

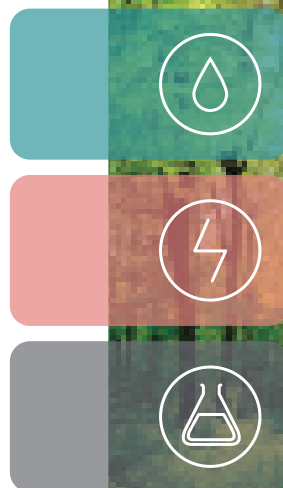

Saving and making good use of water is one of our objectives, we do not allow ourselves to waste it. We offer washing machines with an optimized design and programming as well as a unique accessory, the **ECOTANK**: water recovery tanks.

Energy

Energy optimization, is key in a laundry. With this objective, our machines have been designed for greater energy savings.

Chemicals

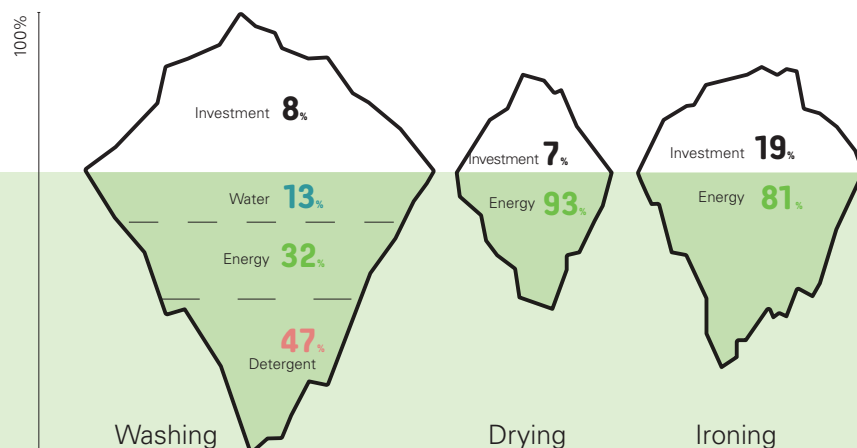

We design our washers with features that facilitate and ensure the most accurate use of chemicals.

In a laundry, the machinery is the visible part of an iceberg.

At Domus we pay attention to the part that cannot be seen, to optimize resources throughout its life cycle.

*Example of a typical laundry with 50% flatwork and 50% terry, during the first 10 years of life.

ADVANTAGES

- ✓ On a DHS-80C TOUCH II washer with 50% load, savings of up to 70% in water and 45% in electricity are achieved.

ECOTANK XL

Washing machines with the TOUCH II system and double drain can be connected to the Ecotank XL, the new centralised tank that allows water recovery, achieving significant water and energy savings. For one or more machines, from 1 to 3 tanks of 1,000 litres.
