WINNING THE FUTURE THROUGH INNOVATION

Clean & Move

Clean&Move

YOUR MOBILE AND CONNECTED LAUNDRETTE

Domus offers a new mobile solution with the **Clean&Move**, an all-in-one concept, offering a smart and ready-to-use laundry for all types of events, for temporary or permanent businesses.

Each module includes 3 machines preconfigured for self-service use: an 18 kg high speed washer, an 8 kg high speed Heavy Professional washer and an 18 kg dryer, ready to be connected to a central pay and offers, in addition, several possible accessories.

Industrial dryer
DTT-18

Industrial washer
DHS-18
(High speed)

Heavy Professional HPW-8
(High speed)

Machines key points

- ✓ Designed to deliver high efficiency.
- ✓ Control TOUCH II: user-friendly 7" touchscreen with configurable programs and 37 languages available.
- ✓ DOMUSCONNECT - **connectivity as standard** allowing real-time machines monitoring and optimization of the laundry performance and efficiency.
- ✓ Stainless steel drum and large loading opening.
- ✓ High spin washers for reduced residual moisture.

Module key points

- ✓ **Easy to transport** by sea or land thanks to its compact dimensions and to handle with a forklift or with a crane using the 4 lifting points.
- ✓ **Easy connection to the network:** a single connection point for Ethernet, power supply, water network, and drainage.
- ✓ **Easy access for technicians and chemical partners:** thanks to hinged panels and doors.
- ✓ **Possibility to add practical options:** backlit panels, winter kit, solar panels or home automation kit among others.
- ✓ **Notable option:** DOMUS LAUNDRY KIOSK, the new integrated touch central pay for payment by card or smart device (NFC).

TOUCH II & CONNECTIVITY

Your Clean&Move laundromat can be managed from anywhere thanks to the **TOUCH II** control and the **DOMUSCONNECT** platform.

1 TOUCH II control

User-friendly 7" touchscreen

Fully programmable: choose the language, configure the washing programs, and activate IoT connectivity to recover data in real-time.

2 DOMUSCONNECT platform

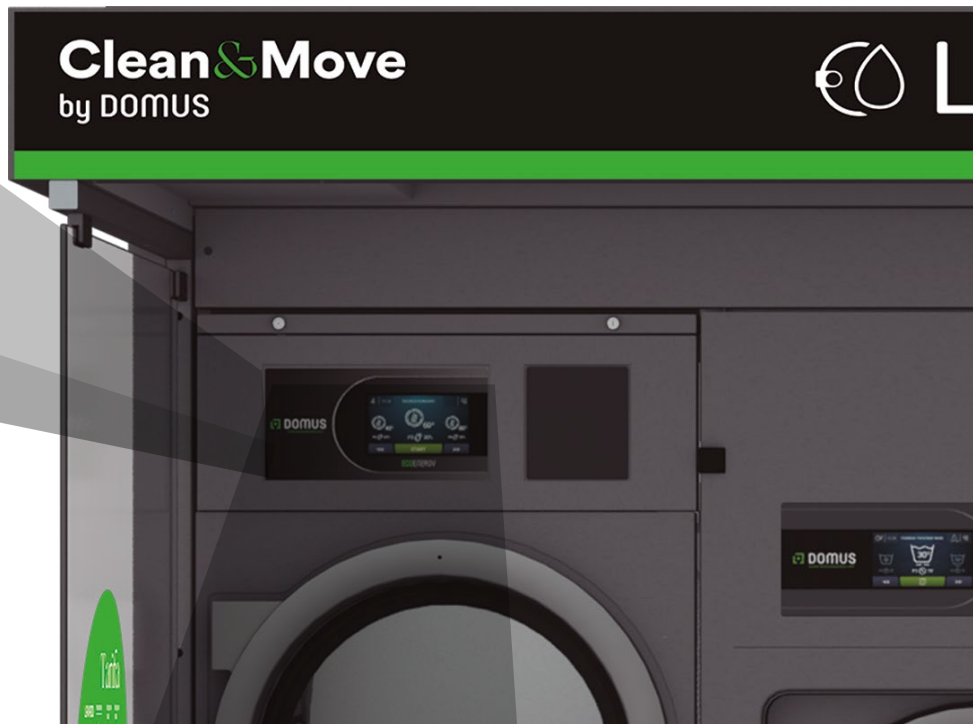

Efficient remote management. Create personalized rate plans, manage payments via the **DOMUS LAUNDRY App** or the **DOMUS LAUNDRY KIOSK** central pay (optional), launch promotions and control revenues, all from a single system.

The Clean&Go includes an Ethernet-ready connection, facilitating integration, a stable and secure Internet connection to access all DOMUSCONNECT features (cables to the router not included).

DOMUSCONNECT is the easy and free IoT connection, included standard that allows total control of your business remotely.

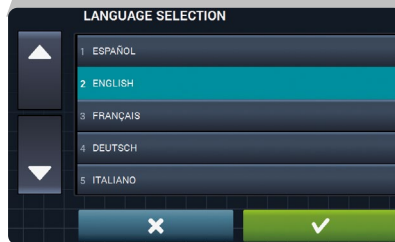

On-screen videos

Manage personalized advertisements and instructions that users can see on the screen of each machine.

37 languages available

Easy to configure to be accessible to as many people as possible.

EFFICIENCY

The Clean&Move has been designed to optimize the use of resources while maintaining high performance with the lowest possible consumption.

Low water consumption

A standard washing programme consumes less than 8 litres of water per kg and per cycle.

Easy programming

Possibility to configure, create and offer the most efficient programs.

Intelligent consumption

Automatic adjustment of water and detergents.

Double Flow

Axial and radial flow on the dryer optimizing drying time

Payment systems

Clean&Move modules offer great flexibility by allowing you to choose between **three compatible and combinable payment systems**. This customisation ensures that you can offer the best customer experience, with secure, convenient and fully integrated module options.

1 Payment COINER / TOKEN

The machines included in the Clean&Move can be equipped with a coiner / token box.

2 Payment with the DOMUS LAUNDRY App

It allows remote machine reservation, payment and helps build customer loyalty by creating promotions.

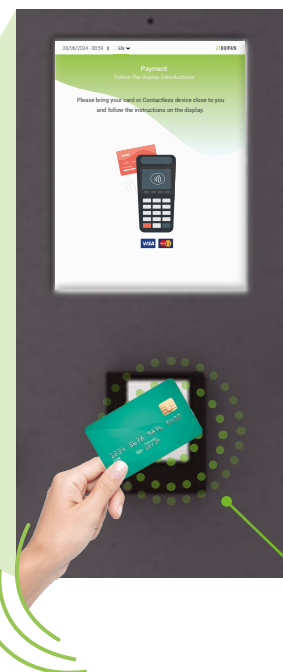

3 **DOMUS** LAUNDRY KIOSK

Payment with the **DOMUS LAUNDRY KIOSK 12'** integrated in your Clean&Move to offer a convenient payment system for your customers, secure, cashless and remotely controlled thanks to the **DOMUSCONNECT** platform.

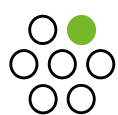

As an owner, you will be able to:

-  **Check revenues.**
-  **Create pricing plans.**
-  **Manage promotions.**
-  **Make better decisions for your business.**

From the screen, the user will be able to:

-  Select the machine to be used.
-  Select the required programs.
-  Pay by bringing a card or smart device close to the contactless reader.

OUTSTANDING FEATURES

It includes 3 efficient machines

18 kg industrial dryer, 18 kg high spin industrial washer and a 8 kg high spin heavy professional washer.

- ✔ **TOUCH II microprocessor with intuitive touchscreen.**
- ✔ **Standard reversing drum.**
- ✔ **Standard stainless steel drum.**
- ✔ **Standard frequency inverter.**
- ✔ **Standard SOFT DRY on dryer:** drum with punched holes to preserve clothes.

It includes 6 dosing pumps

Included in the module supplying the washing machines.

It includes built-in hot water boiler

It's located inside the module.

Reduced installed power

Only 17 kW and a single electrical connection point.

Integrated central pay

DOMUS LAUNDRY KIOSK with a 12" touchscreen (option).

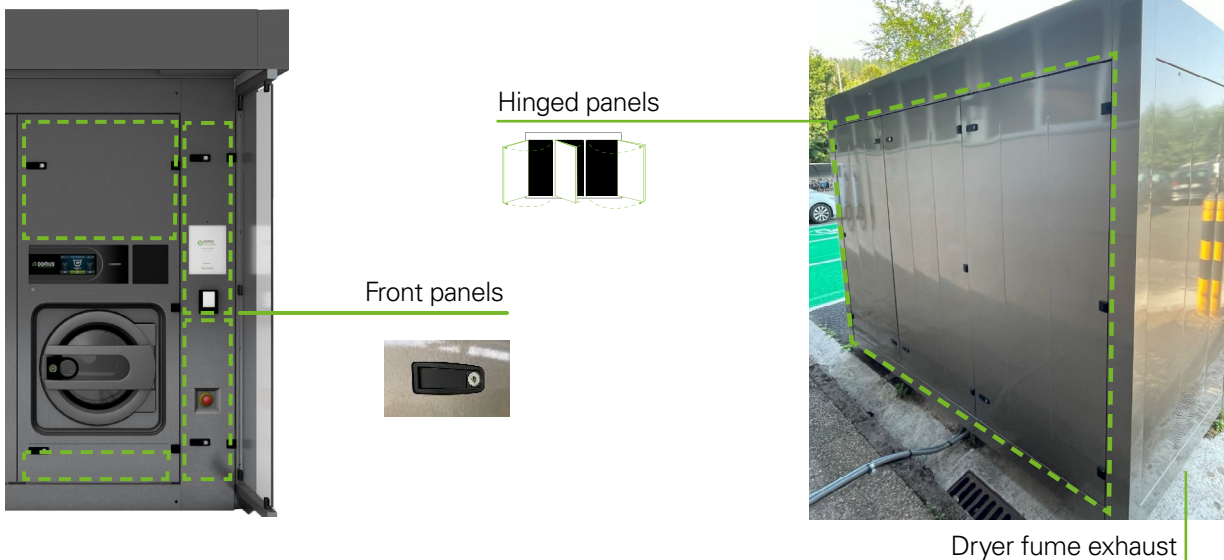

EASY MAINTENANCE

A key point is to make life easier for our clients. This includes offering quality equipment and parts from reputable brands that require little maintenance.

The Domus Clean&Move is also designed to **allow easy access** to all components for service and maintenance. The dosing pumps are also very easy to access through the service door.

Easy and ergonomic access

for technicians and chemicals partners thanks to the side, front and rear panels and their closing elements.

Technical menu

Machine monitoring, error reporting, management, telemetry and statistics. Remote desktop and data recovery for after-sales service, software updates, etc.

Easy connections

A single connection point for Ethernet, power supply, water network, and drainage in the bottom of the container. Large surface area to be able to adapt to the installation.

VERSATILITY & ROBUSTNESS

Custom options

The Clean&Move can be customized at the factory with the following available options:

Backlit panels.

Solar panels adjustable in both axes up to 45°. Energy consumption savings.

Home automation system, with video surveillance camera, on and off control of machines and lights, and detergent control.

Winter pack, to be able to work at low temperatures (-10°). The system is activated below 5°.

DOMUS LAUNDRY KIOSK, a central pay with digital screen and contactless reader.

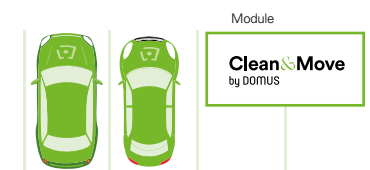

Vinyl

The Domus aesthetic line is offered for free in editable vinyl format, including usage instructions and payment system options. To be printed by the client.

Small space

The module has very compact dimensions (2,887 x 1,974 x 2,234.8 mm), occupying a very small space equivalent to 2 car park spaces (5 - 6 m²).

Inclusive

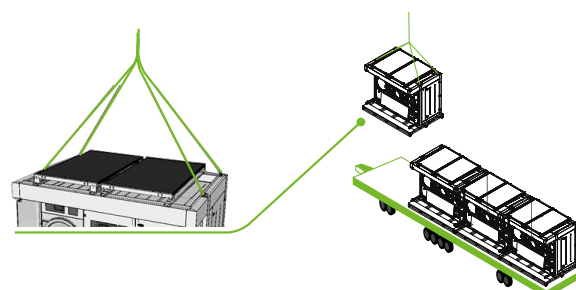

Designed for people with reduced mobility. Accessible payment screen and start buttons as standard.

Highly robust

- ✓ **Structure made of galvanised steel with a skinplate casing.**
- ✓ **Weather-resistant:** withstands rain thanks to its sloped roof with an internal gutter for efficient drainage.
- ✓ **Safety glass** composed of 5 mm glass, a polyvinyl butyral layer, and another 5 mm glass layer.
- ✓ **Machines in grey skinplate** with durable aluminium doors.

Easy to transport

- ✓ Packaging for sea transport available (option).
- ✓ Possibility to load **4 Clean&Move per 12 metre truck** (unique on the market).
- ✓ Designed for easy handling with a forklift from below.
- ✓ Handling with crane from **4 lifting points**.

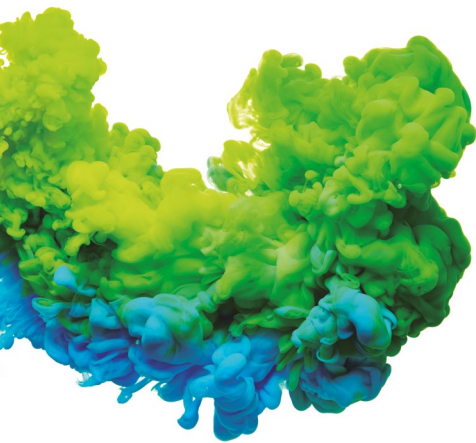

Sectors

Clean&Move perfectly **adapts to a wide variety of sectors and environments** thanks to its compact, transportable and fully equipped structure.

With its integrated washers, dryer and various payment options, this module offers an **efficient and flexible solution**, in a minimum of space for a complete service everywhere

- ✔ Gas stations.
- ✔ Car wash stations.
- ✔ Service areas.
- ✔ Public parking.
- ✔ Mass events.
- ✔ Hypermarkets / supermarkets.
- ✔ Campsites.
- ✔ Investors.
