

DOMUS LAUNDRY KIOSK

CONTACTLESS PAYMENT HUB

Clean & Go

What is the DOMUS LAUNDRY KIOSK?

The DOMUS LAUNDRY KIOSK is the new and revolutionary contactless payment centre designed to optimise the financial management of your self-service laundry and facilitate payments to your customers.

With an elegant, modern design and touch screens in two sizes, it allows the selection of machines, programmes and payments by contactless reader as well as a more comfortable and secure management of your income.

Connection via Ethernet or pulse (option).²

Available in 2 screen sizes:

- ✓ 32' screen with or without integrated printer.
- ✓ 12' screen without integrated printer.

Integration with DOMUSCONNECT and DOMUS LAUNDRY App.

Versatile and compatible with other payment systems. Can coexist with other payment methods (tokens / coins or payment App with QR).

It issues proof of payment / service in paper¹ or electronic format.

¹The 32' model is available with an integrated paper receipt printer.

²Unlimited connections via Ethernet with TOUCH II machines. Pulse connection (option) with M-controlled machines and equipment from other manufacturers up to a maximum of 8 machines per Kiosk.

For the owner

How do I manage the kiosk?

DOMUS LAUNDRY KIOSK adapts to the needs of your laundry, making life easier for you and your customers. In addition to improving security and user experience, you will be able to **manage and control your central payment and revenue** from the free **DOMUSCONNECT** platform, in the 'machines' menu.

Avoid travel: the remote management of the KIOSK allows you to manage prices, collections, and promotions without having to be there in person.

KIOSK management: register and list your payment centres.

Financial centralisation: control all your laundry transactions in real time, manage payments, reimbursements and consult performance graphs.

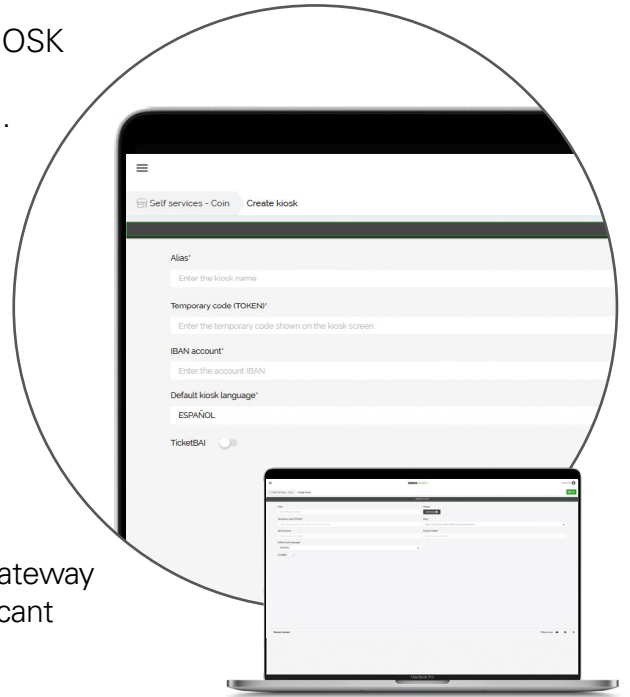

Personalised promotions: create exclusive offers for your customers, visible on the KIOSK.

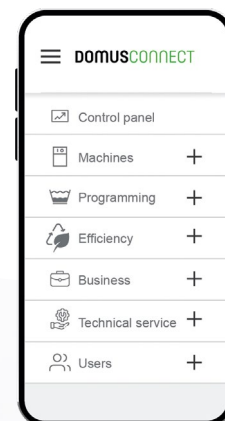

ONNPay: manage the new standard payment gateway in the Kiosk, which will allow you to enjoy significant advantages and increase your profitability.

- ✔ No start-up fees.
- ✔ No fixed costs or annual licence fees.
- ✔ Very low percentage of commissions.*
- ✔ Posibilidad de elegir liquidación diaria, semanal, mensual o el periodo que deseas.

*Consult commissions and countries of Application.

Adapted for TicketBAI: ready to comply with the requirements of the Provincial Treasuries and the Basque Government.

In addition to controlling the payment centre, with DOMUSCONNECT **you can manage your entire business remotely:** schedules, prices, payment methods, promotions and view live metrics and reports on consumption and profits, among others..

For the customer

How does the KIOSK work?

Through a large touchscreen, it allows your customers to **select the desired machine, schedule, pay and receive exclusive promotions.**

Your customer will be able to pay quickly, easily, and securely by following these simple steps:

1. Select the language.
2. Choose the available service: washing, drying, disinfection, or any other service you have configured.*
3. Select the machine.
4. Choose the programme you prefer.
5. Pay by card or contactless mobile phone.
6. Insert the clothes and press 'START' on the chosen machine.

*Thanks to the pulse connection, you can allow your customers to pay for other services, such as the coffee machine, through the KIOSK.

Quick,
intuitive and
easy to use.

Add a KIOSK to your laundry:

Easy to install: connect it to the internet via Ethernet and configure it in minutes.

It requires positioning with a minimum of 25 cm to the left for technician access.

Remote updates: thanks to the connectivity of the KIOSK and the team of professionals, you will receive improvements and new features for free.

Full remote control: manage prices, promotions, and booking times from anywhere via IoT.

Security and simplicity: no coins, no cash. Everything is digital and secure.

Contactless payments: allows payments via card, mobile, or smart devices (NFC).

Great compatibility: it allows you to register and manage equipment with TOUCH II via Ethernet or other equipment using pulses (optional). These can include models with control M, TOUCH I, ozone cabins, models from other manufacturers, or even additional services you have in your business, such as payment for the use of the coffee machine through our payment hub.

Customisable vinyls: available vinyl templates with editable instructions and personalisable adverts for the KIOSK, following the Clean&Go aesthetic line.

Wireless (TOUCH II): connecting Domus machines with TOUCH II is very easy, fast, and clean, requiring only a single Ethernet cable.**

* Max. connection of 8 machines via pulse communication per KIOSK. Requires the "External pulse signal card" option.

**For older models, control M, or other machines, it requires the pulse card (optional) and wiring those machines.
