

# TUMBLE DRYERS

2025

# The new state of the art in drying

DOMUS Ecovolution dryers move on with new features on efficiency and connectivity.

Our principles of constant innovation in technology result in a variety of technologically advanced and EFFICIENT machines.

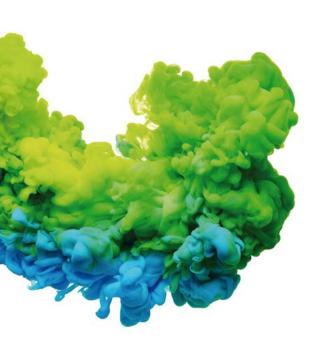

All models have the big 7" touchscreen microprocessor TOUCH II, for great comfort and operation. A wide range: 11, 14, 18, 22, 28, 35, 45, 60 and 80kg. The three largest capacity models have as option the sliding door for easy loading and unloading.

The most efficient range: ECO-ENERGY with AIR RE-CYCLE, EFFICIENT DRY moisture control, THERMAL INSULATION, TOUCH II control, connectivity DOMUS CONNECT as standard as well as WET CLEANING system possibility.

Other ranges like DYNAMIC dryers (EFFICIENT DRY as option) and COMFORT (with M programmer) are versatile and even the ESSENTIAL range features the REVERSE DRUM and INVERTER as standard, for the most price-concerned markets.

STACK dryers have a wide range now: 11, 14, 18 and 22kg models.

All ranges can be used as OPL or COIN by simply making a slight modification in the coiner or connecting them to the new DOMUS LAUNDRY KIOSK or any other central pay or to IoT.

# ECOENERGY | The most efficient

- igotimes AIR RE-CYCLE: air recovery system for great energy efficiency.
- EFFICIENT DRY: the intelligent humidity sensor.
- THERMAL INSULATION: the complete circuit of the airflow.
- FULL FLOW: optimized axial-radial airflow.
- SFEX: Integrated Fire Extinguishing System.
- ODMUSCONNECT standard IoT connectivity.
- Microprocessor TOUCH II: 7" coloured touch screen.
- Grey skinplate body, stainless steel look.
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- STAINLESS STEEL DRUM standard.
- SOFT DRY: the new drum with stamped holes.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- Models available in electric, gas or steam heating.

Perfume dosing system.

Front tilt on big capacity.

Sliding door.

- Microprocessor TOUCH II: 7" touch screen for all models.
- DOMUSCONNECT standard IoT connectivity.
- Grey skinplate body, stainless steel look.
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- STAINLESS STEEL DRUM standard.
- DOUBLE FLOW: mixed axial-radial airflow.
- SOFT DRY: the new drum with stamped holes.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- Models available in electric, gas or steam heating.

• Sliding door, ergonomic and ideal for taking up less space. EFFICIENT DRY: the intelligent humidity sensor.

SFEX: Integrated Fire Extinguishing System.

Double door glass.

Perfume dosing system.

Front tilt on big capacity.

# DTM **COMFORT**

- M programmer: push buttons to control temperature and time.
- Grey skinplate body, stainless steel look.
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- STAINLESS STEEL DRUM standard.
- OUBLE FLOW: mixed axial-radial airflow.
- SOFT DRY: the new drum with stamped holes.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- Models available in electric, gas or steam heating.

Display for M programmer.

# DLM **ESSENTIAL**

- M programmer: push buttons to control temperature and time.
- White painted panels. Galvanized drum.
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- Models available in electric or gas heating.
- ODUBLE FLOW: mixed axial-radial airflow.

# **Double pocket: STACK**

# DTT2 XP New

- Microprocessor TOUCH II: 7" color touch screen.
- ODMUSCONNECT standard IoT connectivity.
- Grey skinplate body, stainless steel look
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- STAINLESS STEEL DRUM Standard
- OUBLE FLOW: mixed axial-radial airflow
- SOFT DRY: the new drum with stamped holes
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.

#### **OPTIONS FOR DTT**

EFFICIENT DRY: the intelligent humidity sensor.

SFEX: Integrated Fire Extinguishing System.

Double door glass.

Perfume dosing system.

- Grey skinplate body, stainless steel look
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- STAINLESS STEEL DRUM Standard.
- ODUBLE FLOW: mixed axial-radial airflow.
- SOFT DRY: the new drum with stamped holes.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.

#### **OPTIONS FOR DTM**

Double door glass.

Display for M programmer.

White painted panels. Galvanized drum.

Big loading door (opening of 180°).

REVERSE ACTION: standard in all models.

OUBLE FLOW: mixed axial-radial airflow

SOFT DRY: the new drum with stamped holes

FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.

COOL DOWN: anti-wrinkle at the end of cycle.

Models available in electric or gas heating.

# **ECO**ENERGY

### TOUCH II

- User friendly and totally programmable microprocessor with a **7" touch screen**.
- ODMUSCONNECT Standard and free IoT connectivity.
- Videos shown on display: ads, instructions (useful for coin laundry).
- USB port: configure, update and analyse machines without internet connection.
- Optional:

  Dosing/vaporizing system (softeners/perfumes).

# OUTSTANDING FEATURES

- Reversing drum action as standard.
- Stainless steel drum as standard.
- Frequency inverter as standard.
- SOFT DRY as standard.

### VERSATILITY

- Make to order: customization.

  Possibility to customize the machines f
  - Possibility to customize the machines from factory with the available options.

Possibility to create different phases per program with its customized parameters.

- **SEFFICIENT DRY**
- **⊘** OPL <> Self-service

Standard OPL model easily transformable to coin laundry.

### MAINTENANCE

**Hinged** panel

Easy and ergonomic access to control panel parts.

**Solution** Easy access to parts for reparability

Dryers are designed to offer an easier maintenance and repair

Example: rear panel in big capacity dryer.

**⊘**Technical menu

Machine monitoring, machine error warning, management for telemetry and statistics. Remote desk and data recovery for technicians and maintenance, software update, etc.

### ERGONOMICS

- Orawer as fluff filter, made of stainless steel.
- Big door diameters Helpful for loading and unloading.
- Oldeal door height for ergonomic opening
- Opening direction of door adjustable on site (models 11 to 36 kg).

Opening sense can be changed just turning the front panel and adding a part (longer wire to be ordered).

- Reversible door can be ordered for all dryers, factory fitted
- **⊘** Optional:

New sliding door in 45 kg to 80 kg models. Automatic or manual operation.

### EFFICIENCY

- **EFFICIENT DRY** Intelligent humidity control (includes new drum inlet temperature control).
- AIR RE-CYCLE Efficient air recirculation system Short drying times, less energy consumption.
- FULL FLOW New "optimized" system of mixed airflow.
- ODUBLE FLOW Axial radial flow.
- **⊘** Big fluff filter
- **⊘**Thermal insulation
- Optional:

LEMS by Onnera Pulse Concentrator.

### CONNECTIVITY

- ✓ DOMUSCONNECT connectivity standard. Machine monitoring, machine error warning, management for telemetry and statistics. Remote desk and data recovery for technicians and maintenance, software update, etc.
- NEW telemetry: detailed data with dynamic and customisable graphs.
- Management for laundries: OPL and COIN Our DOMUS IoT solution allows you to manage your laundry business (i.e. create discount programs for customers, get statistics, telemetry and laundry monitoring).
- *⊙* **LEMS by Onnera Pulse Concentrator**
- Remote payment: App for payments, cashless payment by scanning a QR code, promotions and machine booking.

The TOUCH II includes many features based on achieving more efficiency, versatility and connectivity.

# User friendly and totally programmable microprocessor

7" touch screen.

Configuration of washing and spinning speed.

Complete regulation of water levels.

Regulable washing temperature from 20 °C to 90 °C.

Standard Wet Cleaning system.

# Videos on display

Ads, instructions (useful for coin laundries).

### Dosing / vaporizing system

Offer your customers a premium experience by precisely managing the fragrance dosing in your dryers.

# Multilingual interface

Choose your preferred language to display on the TOUCH II screen from a wide and constantly expanding selection.

### DOMUSCONNECT:

Maximum efficiency and real-time control

Discover the power of IoT connectivity, integrated for free in all machines with TOUCH II via Ethernet, for advanced and efficient management.

- Monitor telemetry and statistics in real time.
- Optimise the performance of your equipment.
- **⊘** Ensuring MAXIMUM HYGIENE.
- Receive remote technical support.
- Update the software and much more.

# **USB** port

If you don't have an internet connection in your laundry, the USB port allows you to configure, update, and analyse the machines via this connection by downloading and uploading data.

# **ECO**ENERGY

A RANGE WITH ALL EFFICIENT FEATURES AS STANDARD

The new ECOVOLUTION technology, especially in HEAT PUMP and ECOENERGY tumble dryers, offer a wide variety of standard efficient features to provide important energy savings.

100% Eficiency in Domus dryers

### Air Re-Cycle

Efficient air recovery system. Short drying times, less energy consumption.

# Thermal insulation

Insulated panels to avoid loss of heat.

# **Efficient Dry**

Intelligent humidity control (standard in ECO-ENERGY and as option in DYNAMIC).

# Drum inlet temperature control

A more accurate temperature control in the drum.

### **Full Flow**

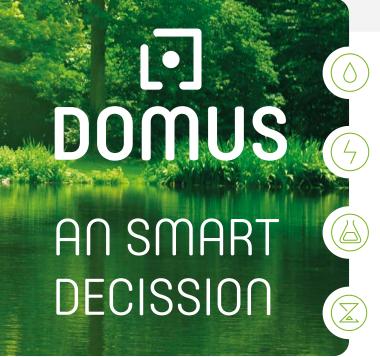

Optimized system of mixted airflow in ECO-ENERGY range.

### **Double Flow**

Axial radial airflow in DYNAMIC, COMFORT and ESSENTIAL ranges.

# In a laundry, the machines are the visible part of an iceberg.

At DOMUS we pay attention to the iceberg part that cannot be seen, to optimize the expenses during the whole Life Cycle Cost.

#### **Start saving with Domus in:**

#### Water

We design our systems to ensure efficient water usage, preventing waste.

### Energy

We optimise our machines to guarantee greater energy savings and maximise laundry efficiency.

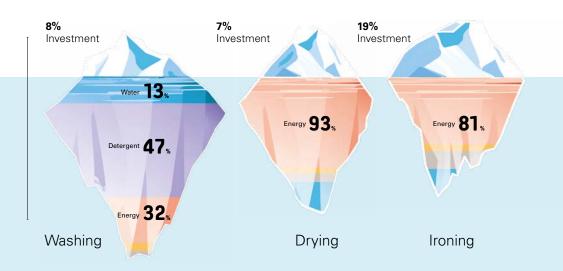

#### Chemicals

We design our washers and barriers with features that ensure the precise use of chemicals.

#### Time

We adjust process times, key in a laundry, to increase efficiency and business profitability.

Example of a standard laundry with 50% flat linen and 50% towelling, during the first 10 years of life.

All DOMUS dryers with TOUCH II come with IoT connectivity as standard and free of charge, enabling full remote management to improve efficiency, control, and business operations.

# DOMUSCONNECT (IoT): the solution for your laundry

The Internet of Things (IoT) connects everyday objects to the internet, allowing real-time remote control and process optimisation.

DOMUSCONNECT is a free laundry management platform that takes IoT to its full potential, transforming the operations of your OPL or self-service laundry.

With this platform, you can increase efficiency, reduce costs, and enhance your customers' experience from anywhere.

### Main feartures of DOMUSCONNECT

#### Accessible from any device

Manage your laundry from a computer, tablet, or smartphone.

#### Free updates

Receive regular new features to keep your business at the forefront.

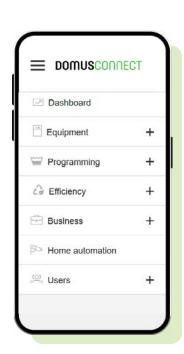

#### **Highly secure**

Advanced security ensures the integrity and confidentiality of your data at all times.

#### ••• Available in multiple languages

Expanding continuously to suit your needs.

### What are the benefits for each profile?

# As an owner you can:

- Manage your business remotely, avoiding unnecessary travel.
- Use an intuitive interface to streamline operations.
- Access production reports, cycles, consumption, and revenue data.
- Ensure process control for washing and drying.
- Guarantee hygiene, disinfection, and quality in every cycle.

# For your self-service customer, they can:

- Make quick and secure payments via card (new), tokens, or the App.
- Enjoy personalised promotions.
  - Check machine status in real time, avoiding waiting times.
    - Operate with an intuitive, user-friendly interface..

### For service technicians:

- Provide remote assistance to minimise on-site visits.
- Access precise data via the new telemetry system to improve operations.
- 🐤 Perform remote software updates to keep machines up-to-date..

# For chemical suppliers:

- Manage and create washing and drying programmes online.
- Control chemical dosing via RS-485.
  - Monitor executed programmes in real time.

# As a distributor, you can:

- Leverage the platform to support new business ventures, manage leasing, maintenance contracts, and self-service setups.
- Access detailed databases of installed machines, geographical distribution, and models for efficient management.

# **ECOSMART LAUNDRY**

by **Domus** 

### THE LAUNDRY OF THE FUTURE HAS ALREADY ARRIVED.

Domus latest generation, high-performance and connected equipment allows you to manage and monitor resource consumption in real time thanks to cutting-edge technology. Ideal for any type of business and sector.

# Add dryers with AIR RECYCLE and EFFICIENT DRY

By adding Domus dryers to your **ECO**SMART LAUNDRY, you improve the efficiency and sustainability of your business. With innovations such as AIR RE-CYCLE and EFFICIENT DRY, each cycle is optimized to save energy and reduce drying times.

# **LEMS** by Onnera - Total control of consumption

With the new LEMS pulse concentrator and DOMUSCONNECT (IoT), you can retrieve all the data and analyze the efficiency of your washing machines and the ECOTANK XL such as water, energy and other resources of your industrial laundry.

# **DOMUSCONNECT**

The data collected by LEMS, added to other metrics and values of your laundry, are integrated into the DOMUSCONNECT platform, allowing you to monitorand control your business live and obtain **detailed management**, **hygiene and efficiency reports**.

# 

To adapt to the needs of the different businesses.

### **OPL <>** Self-service

Easy transformation from OPL to selfservice, with various payment options available (see page 17).

# Wet Cleaning®

The best dryer for Wet Cleaning.

- Fully programmable control: possibility of programming in phases.
- Precise control of inlet and outlet temperatures.

### **EFFICIENT DRY**

Intelligent humidity control, which adapts the drum rotation speed to the humidity level at each drying phase (standard in ECO-ENERGY, optional in DYNAMIC).

### Make to order: customization

Possibility to customise the machine from factory with the available options.

# Various connection modes available

via pulses, with RS-485 protocol or via IoT.

# Payment options

Domus offers you maximum flexibility with **three payment systems that can be combined**, allowing you to choose one or more for your laundry or Clean&Move module. DOMUS dryers between 11 and 45 kg are specifically designed for use in self-service laundries

Optimise your laundry with contactless payments and remote control. Provide convenience and security for your customers while managing pricing and promotions from anywhere with DOMUSCONNECT.

- Available in 12" and 32" screens.
- **Enables payments via card or smart device (NFC).**
- Create pricing plans and promotions.
- Customise it by adding messages or videos.

# Payment via App DOMUS LAUNDRY

Allows remote machine reservation and payment, helping to build customer loyalty with promotional offers. See page 12 for more details.

Washers and dryers can include coin/token payment systems in various currencies.

Click or tap the button to find out more details about

payment options.

# ERGONOMICS

# Opening sense of the door adjustable on site

Opening sense can be easily changed in models 11 to 36 kg. It can also be ordered from factory.

# Biggest door diameters

Helpful for loading and unloading.

# **Big fluff filter**

Drawer with stainless steel grid, easy to open and clean. We take care of you as well as your clothes and your business.

# Sliding door for an easy unloading and loading operation

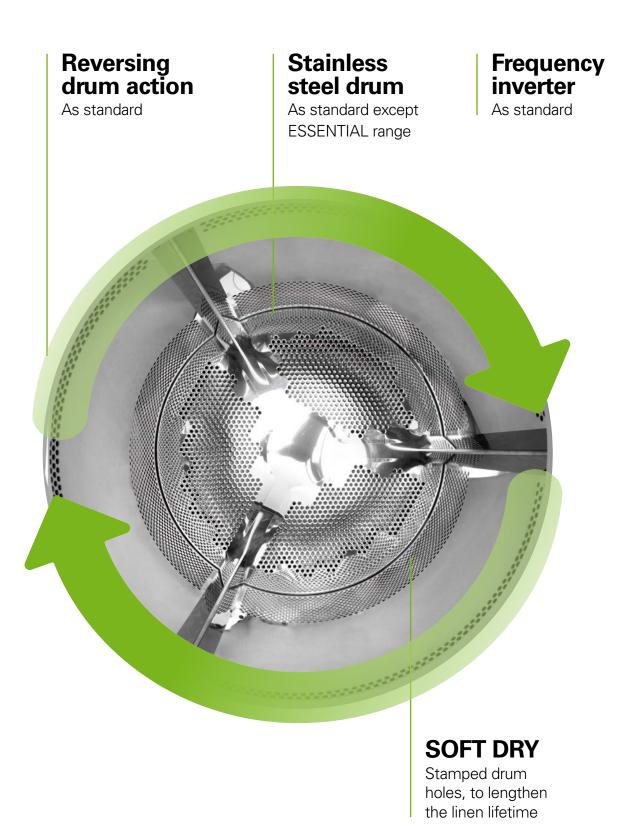

Automatic and manual options.

Front tilt system

# OUTSTANDING FEATURES

# MAINTENANCE

One of DOMUS concerns is to make life easier for our clients. That includes offering quality equipment and parts of reputed brands, which demand little maintenance.

# Easy access to parts

Dryers are designed to offer an easy maintenance and reparability.

# **Hinged panel**

Easy and ergonomic access to control panel parts.

# **Technical menu**

Machine monitoring, machine error warning, management for telemetry and stadistics. Remote desk and data recovery for technicians and maintenance, software update, etc.

# **Equivalent parts**

Most key parts are the same for all mdoels (contactors, eletronic devices, gear...).

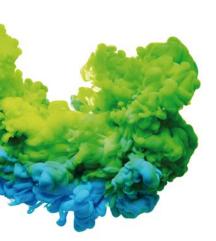

# Tumble dryers technical data
